1. Letter to Shareholders

Dear Shareholders and Investors

I am pleased to be able to present the details of the Medibio Limited Share Purchase Plan, Shortfall Offer and provide an update on the Company's operations.

Medibio Limited Share Purchase Plan

On behalf of the Board, I am pleased to offer you the opportunity to apply for new, fully paid ordinary Shares (**SPP Shares**) and Options in Medibio Limited (**MEB** or the **Company**) under a fully underwritten Share Purchase Plan (**SPP Offer**). While the Company is seeking to raise \$500,000 (before costs) under the SPP Offer, the Company reserves the right to raise more or less than this amount, subject to the terms of the Underwriting Agreement.

The SPP Offer allows Eligible Shareholders the opportunity to subscribe for up to \$30,000 worth of SPP Shares without paying brokerage or other transaction costs. Eligible Shareholders will also be entitled to apply for one free SPP Option (**SPP Option**) for every four (4) SPP Shares subscribed for under the SPP. The SPP Options will be issued for nil consideration and will be exercisable at \$0.015 (1.5 cents) and expiring on 28 February 2024. Each SPP Option gives the holder the right to subscribe for one (1) Share upon exercise and payment of the exercise price.

The SPP Shares will be issued under the SPP at \$0.009 (0.9 cents) per SPP Share (**Offer Price**), which is the same price as the price at which Shares have been offered to investors under the Placement as announced to the market on 10 February 2021.

Shortfall Offer

This Prospectus also includes a Shortfall Offer, which provides that in the event that less than the maximum number of SPP Shares and SPP Options offered are applied for under the SPP Offer (**Shortfall Securities**), the Shortfall Securities will be placed to the Underwriter or its nominees under the Shortfall Offer in accordance with Section 5.18.

The Company has entered into the Underwriter Agreement with the Underwriter, pursuant to which the Underwriter has agreed to fully underwrite the SPP Offer.

Additionally, the SPP Offer is extended to the Underwriter and any sub-underwriter or nominee in connection with the Underwriter's obligations under the Underwriting Agreement (**Eligible Shortfall Participants**). Eligible Shortfall Participants' ability to participate in the SPP Offer will be limited to the extent that there is a shortfall under the SPP Offer (**SPP Shortfall**).

The terms and conditions of the SPP Offer and your SPP Offer Application Form, as well as the Shortfall Offer and Shortfall Application Form, are provided with this Prospectus. You should read this Prospectus in its entirety before deciding whether to participate in the SPP Offer.

Placement

As announced to the market on 10 February 2021, the Company is proposing to undertake a placement to sophisticated and professional investors, for which the Company has received firm commitments of \$3 million (before costs) (**Placement**).

The Placement is being undertaken in two tranches, the first tranche of which raised approximately \$2 million and completed on 15 February 2021 and the second tranche (which is conditional on obtaining Shareholder approval at the GM) which will raise approximately \$1 million and is expected to complete on 8 April 2021.

Participants in the Placement (**Placement Participants**) are also entitled to subscribe for Options on the same terms as the SPP Options that are being offered to Eligible Shareholders in under the

SPP Offer, that is investors under the Placement will be eligible to apply for one free attaching Option for every four (4) Shares subscribed for under the Placement.

The Underwriter has also acted as the lead manager to the Placement. Amongst other consideration that the Company has agreed to pay for such services, the Company has agreed to issue the Underwriter 94,000,000 Options, each exercisable at \$0.015 (1.5 cents) and expiring on 28 February 2024 and otherwise on the terms outlined in Section 7.1 of this Prospectus, being on the same terms as the free-attaching Options offered under the Placement and the SPP Offer ('**Broker Options**').

Underwriting

The SPP Offer is fully underwritten by CPS Capital Group Pty Ltd (AFSL 294848) ('**Underwriter**') up to \$500,000. Accordingly, if no subscriptions are received from Eligible Shareholders for SPP Shares and SPP Options under the SPP Offer, the Underwriter will be required to subscribe, or procure subscription, for \$500,000 worth of SPP Shares (including the relevant free-attaching SPP Options), subject to the Company receiving Shareholder approval at the GM. Likewise, if subscriptions are received from Eligible Shareholders for at least \$500,000 worth of SPP Shares under the SPP Offer (including the relevant free-attaching SPP Options), the Underwriter will not be obliged to subscribe for SPP Shares and SPP Options under the SPP Offer.

The Directors have reserved the right to place the SPP Shares and SPP Options not subscribed for by Eligible Shareholders under the SPP to the Underwriter and any sub-underwriter appointed by the Underwriter under the Shortfall Offer.

Shareholder Approval

The SPP Offer is conditional upon the Company obtaining Shareholder approval at the Company's general meeting to be held via a webinar facility at 11.00am (AEDT) on 24 March 2021 ('**GM**').

Similarly, completion of the second tranche of the Placement is conditional on the Company receiving Shareholder approval at the GM.

A notice of meeting has been dispatched to Shareholders in connection with the GM, and I encourage all Shareholders to carefully read the notice of meeting and vote as per voting instructions provided in the notice of meeting for the GM.

If Shareholder approval is not obtained, persons who subscribe for Shares and Options under the Offers will not be issued with Shares and Options and the Company will refund all application monies (if any).

Use of funds

Proceeds from the Offers and placement of the SPP Shortfall (if any), as well as any funds raised on the exercise of the SPP Options, will be used to undertake the "Sleep Analysis of Depressive Burden" (SADB) trial; undertake commercialisation activities for the Company's MEBsleep and ilumen products, complete the development of the Company's consumer application and for general working capital. The additional working capital will enable the continued growth of the Company's current products alongside its future products.

Update on operations

MEB-001

The development of Medibio's core intellectual property known as MEB-001, that aims to identify clinical depressive burden in sleep disturbed patients, is progressing well. The Company is currently undertaking the "Sleep Analysis of Depressive Burden" (SADB) trial to validate MEB-001 as a medical device. In October 2020, Medibio entered into a Clinical Trial Agreement ("CTA") with MedBridge Healthcare LLC ("MedBridge") to support Medibio's SADB trial. MedBridge recognizes the importance of identifying depression among patients suffering from sleep disturbance and the

potential of Medibio's technology and its clinical application to address this unmet need. MedBridge is the leading provider of sleep laboratory management services in the United States, operating over 130 sleep disorder diagnostic centres and performing over 70,000 sleep disorder diagnostic procedures annually. MedBridge partners with hospitals and physician practices to offer comprehensive, fully-integrated services for the identification, testing, diagnosis, therapeutic coordination, and long-term care management of patients with sleep disorders. Under the CTA, MedBridge, in collaboration with Ohio Sleep Solutions in Columbus, Ohio, will coordinate research guidelines and services for the SADB trial to fast-track patient recruitment.

Inaccurate and inadequate diagnosis is a major barrier to effective treatment of depression, contributing to its recurrence and increasing the likelihood it will lead to a life-threatening disorder. By providing an objective measure of depressive burden, MEB-001 reduces the bias associated with self-report questionnaires and facilitates help-seeking behaviour; in addition the resulting increase in accuracy and efficiency allows for a reduction in costs currently borne by the healthcare system. In an effort to fast-track the application process in response to the heightened mental health concerns resulting from the COVID-19 pandemic and resulting economic conditions, in September 2020 Medibio submitted an application with the FDA for "Breakthrough Device Designation" for MEB-001. The FDA's Breakthrough Devices Program supports accelerated development and review of medical devices that promise a more effective treatment or diagnosis of life-threatening or irreversibly debilitating diseases or conditions, and meet at least one of the following criteria:

- Represents Breakthrough Technology;
- No Approved or Cleared Alternatives Exist;
- Offers Significant Advantages over Existing Approved or Cleared Alternatives;
- Device Availability is in the Best Interest of Patients.

In November 2020, the FDA notified Medibio that its application for Breakthrough Designation did not satisfy the FDA's Breakthrough Device criteria. Medibio has subsequently had communications with the FDA and will not be progressing this Breakthrough Designation application. The FDA has advised that the Company may propose updated indications for use with additional information to support the change in a new Breakthrough Device designation request. In those communications, the FDA acknowledged that Major Depressive Disorder (MDD) is life-threatening and irreversibly debilitating. The FDA also acknowledged that based on preliminary information, MEB-001 may exhibit promise in aiding the diagnosis of MDD but that more performance data is needed to demonstrate that it can reasonably result in a more effective diagnosis compared to current usual care methods. The FDA also noted that the Company may submit a new application should further data support a more effective diagnosis. Medibio will continue the development of MEB-001 and the related validation trial in preparation for a pre-submission meeting with the FDA.

MEBsleap

In April 2020, Medibio submitted an 510(k) application to the FDA for its sleep staging software, MEBsleap. MEBsleap is a software-only medical device that analyses Electroencephalogram (EEG) and Electrocardiogram (ECG) data collected during polysomnography to verify sleep stages and heart rate variability (HRV) in patients suffering from primary or secondary sleep disturbances. MEBsleap uses artificial intelligence, deep learning algorithms and neural network methodology to analyse large amounts of raw data, including autonomic nervous system modulation throughout sleep stages, to highlight key information to assist the physician in understanding the patient's condition.

In December 2020, the FDA advised it requires a larger sample of clinical data better reflecting the proposed intended use population, in order for it to be considered substantially equivalent to its chosen predicate device. The FDA did, however, provide a detailed pathway as to how Medibio may achieve approval for MEBsleap and invited the company to discuss the additional steps required. Following subsequent consultations, the FDA have since indicated that new data may not be required. Medibio is currently considering whether to submit a new 510(k) application. Whilst regulatory approval is not required for MEBsleap's primary purpose (as an integral part of

the depressive burden software device MEB-001), the Company believes MEBsleep is of commercial value and represents an early revenue opportunity in the clinical sector. It is also important to note that this program has not affected the progress of the depressive burden trial which is Medibio's primary objective. The Company is currently pursuing commercial opportunities in the research market, which does not require regulatory approval.

In January 2021, Medibio received CE Mark approval MEBsleep. CE Mark approval allows Medibio to commercialise MEBsleep across the European Economic Community. The intended users of this device are sleep technicians and researchers. The Company is currently exploring commercialization paths with European academic groups and pharma companies focused on behavioural sleep medicine.

ilumen

In November 2020, Medibio signed a three-year Global Master License and Services Agreement (GLA) with Compass Group Plc. ("Compass") for Medibio's corporate mental health product, ilumen. Compass is a multinational corporation providing contract food and related support services across a number of industry groups, including Business & Industry, Defence, Offshore & Remote, Education, Healthcare and Sports & Leisure. Under the terms of the agreement, Medibio will make ilumen available to Compass' related companies electing to implement the technology for the benefit of their employees. The agreement also grants Compass the right to license ilumen to their client companies, which include many multinational corporations. Revenue generation, which Medibio expects to be material, will depend on the rate and level of adoption by Compass, its related companies and their respective client companies. The annual licence fee is a SaaS (Software as a Service) fee calculated per-employee, per annum based on the size of the workforce of the particular company enrolled in the program, regardless of the level of employee participation. Since executing the agreement, Medibio has been working with Compass' Head Office in London to identify opportunities to implement ilumen amongst Compass companies and Compass client companies. Discussions are ongoing with a number of Compass companies around the world, including but not limited to Compass Australia regarding implementation for its internal staff and significant clients in the Australian mining and resources sector. All of these discussions are progressing well albeit slower than they would otherwise without travel constraints due to border restrictions.

Consumer App

The COVID-19 pandemic and its many social and economic consequences has exacerbated mental health conditions amongst the global population. In the United States, the increased stress and worry has adversely impacted the mental health of an estimated fifty-three percent of adults. Medibio intends to address this increased need and demand for mobile mental wellness through its Consumer App, which will be made available on Android and iOS platforms. The Company's pioneering work in the use of biometric data to aid in the early detection and screening of mental health conditions, together with its patented method of assessing stress by monitoring overnight heart rate, underpins the functionality of Medibio's Consumer App, which includes both biometric and psychometric assessments.

The Consumer App's unique biometric functionality will include:

- a Sleep Stress Score that evaluates the time it takes a person to fall asleep each night, the duration and quality of sleep every night, the number of times sleep is interrupted by awakening and the frequency of early awakening;
- a Cardiovascular Stress Score that calculates the amount of energy used by the body during physical activity;
- an Activity Stress Score that analyses the amount of energy used by the body during physical activity with combined activity levels and corrected for the user's age; and
- an Overall Stress & Wellbeing Score that assigns a weighting to specific factors from each of the three stress scores above (sleep, cardiovascular and activity).

This unique feature will set Medibio's Consumer App apart from competitors in the marketplace. Medibio's market research indicates no other viable instore mental health app has patent protected biometric functionality. Development work is progressing according to plan. The commercial launch in the USA is expected in advance of Mental Health Awareness Week in October 2021.

2. Key SPP Information

What is the SPP?

The SPP provides Eligible Shareholders with the opportunity to subscribe for up to \$30,000 worth of SPP Shares (and free attaching SPP Options) without paying any brokerage or other charges. Additionally, Eligible Shortfall Participants will be able to participate in the Shortfall Offer to the extent that there is an SPP Shortfall.

Applications may be scaled back at the absolute discretion of the Company. More details of the SPP are set out in Section 5 of this Prospectus.

How much will the Company raise under the SPP Offer?

The Company is seeking to raise \$500,000 under the SPP Offer. The Company reserves the right to raise more or less than this amount in its absolute discretion, subject to the terms of the Underwriting Agreement.

The Company may, at its absolute discretion, scale back the number of SPP Shares (and free attaching SPP Options) that will be allotted to individual Shareholders under the SPP Offer. However, the Company anticipates that this will only occur to the extent that the SPP Offer is oversubscribed by Eligible Shareholders.

What is the Offer Price of SPP Shares under the SPP Offer?

The SPP Shares will be issued under the SPP at the Offer Price of \$0.009 (0.9 cents) per SPP Share, which is the price at which Shares were issued to Placement Investors under the Placement. For every four (4) SPP Shares validly subscribed for under the SPP Offer, the SPP Subscribers are also entitled to receive one free-attaching SPP Option exercisable at \$0.015 (1.5 cents) each and expiring on 28 February 2024.

There is a risk that the market price of Shares may rise or fall between the Record Date, the date of this Prospectus, the date on which a Shareholder makes a payment for SPP Shares, submits an SPP Offer Application Form, and the time of issue of SPP Shares under the SPP Offer. This means that the price you pay for the SPP Shares issued to you may be less than or more than the market price of Shares at the date of this Prospectus or the time of issue of the SPP Shares.

There is also a risk that the market price of Shares may rise or fall between when the SPP Options are granted and when a holder of the SPP Options exercises the SPP Options. This means that the value of the SPP Options at any time prior to their exercise may be less or more than the value of the SPP Options as at the date of grant.

No cooling off rights to your application and your application may not be withdrawn even if the market price of Shares is less than the Offer Price.

The current Share price can be obtained from the ASX under the ticker code "MEB".

Is the SPP Offer underwritten?

Yes, the SPP Offer is underwritten by the Underwriter up to \$500,000. Accordingly, to the extent applications are received for SPP Shares (and free-attaching SPP Options) under the SPP Offer are less than \$500,000, the Underwriter (including any sub-underwriters appointed by the Underwriter) will be required to subscribe for the difference up to \$500,000 worth of SPP Shares. Likewise, if subscriptions are received for \$500,000 worth of SPP Shares (and free-attaching Options) under the SPP Offer, the Underwriter (and any sub-underwriters appointed by it) will not be obliged to subscribe for the SPP Shortfall. 6. Purpose and effect of the Offers

6.1 The Offers

As announced to the market on 10 February 2021, the Company is proposing to undertake the Placement to sophisticated and professional investors, by the offer of Shares at an offer price of \$0.009 (0.9 cents) per Share, for which the Company has received firm commitments of \$3 million (before costs).

The Placement is being undertaken in two tranches, the first tranche of which raised approximately \$2 million and completed on 15 February 2021 and the second tranche (which is conditional on obtaining Shareholder approval at the GM) which will raise approximately \$1 million and is expected to complete on 8 April 2021.

Placement Participants are also entitled to subscribe for free attaching Options on the basis of one (1) free attaching Option for every four (4) Shares subscribed for under the Placement. In consideration for services provided in connection with the Placement, the Company has agreed to issue the Broker Options to the Underwriter.

In conjunction with the Placement and subject to shareholder approval (to be sought at a shareholder meeting to be held on 24 March 2021), the Company is undertaking the fully underwritten SPP Offer whereby Eligible Shareholders are offered the opportunity to acquire up to \$30,000 worth of Shares per Eligible Shareholder, on the same subscription price and terms as those offered to Placement Investors under the Placement. Accordingly, Eligible Shareholders will be eligible to apply for SPP Shares at an offer price of \$0.009 (0.9 cents) per Share and are also entitled to subscribe for free attaching SPP Options on the basis of one (1) free attaching SPP Option for every four (4) SPP Shares subscribed for under the SPP Offer.

The Company has entered into the Underwriter Agreement with the Underwriter, pursuant to which the Underwriter has agreed to fully underwrite the SPP Offer, up to a maximum of \$500,000. Therefore, the SPP Offer is extended to the Eligible Shortfall Participants, being the Underwriter and any sub-underwriter or nominee, in connection with the Underwriter's obligations under the Underwriting Agreement. Eligible Shortfall Participants' ability to participate in the Shortfall Offer will be limited to the extent that there is a SPP Shortfall.

6.2 Purpose of this Prospectus

This Prospectus has been issued for the purposes of enabling the SPP Offer to be made to all Eligible Shareholders and to the extent it relates to the SPP Offer and the Shortfall Offer, to enable the SPP Shares and the Shortfall Shares issued to be on-sold without disclosure.

In addition, the purpose of this Prospectus is to remove any trading restrictions that may be applicable to the Shares and Options issued (or will be issued) by the Company under the Placement and the Broker Options, which were issued without disclosure under Chapter 6D of the Corporations Act.

The offer and issue of the Shares and Options under the Placement and the Broker Options have been undertaken without disclosure under Part 6D of the Corporations Act, to investors who were considered sophisticated investors, professional investors or other investors who were exempt from disclosure pursuant to section 708 of the Corporations Act.

Generally, section 707(3) of the Corporations Act requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to on-sell those securities within 12 months of the date of their issue.

Relevantly, section 708A(11) of the Corporations Act provides an exemption from this general requirement and states that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
 - (i) a prospectus is lodged with ASIC on or after the day on which the relevant securities were issued, but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is an offer of securities issued by the body that are in the same class of securities as the relevant securities.

Accordingly, an additional purpose of this Prospectus is to comply with section 708A(11) of the Corporations Act so that the Shares and Options under the Placement and the Broker Options may be sold within the next twelve months without the issue of a prospectus. The issue of the Shares and Options under the Placement and the Broker Options have not been undertaken by the Company with the purpose of the Placement Investors or the holders of the Broker Options selling or transferring those Shares. However, the Directors consider that the Placement Investors and the holders of the Broker Options should be able to sell them should they wish to do so, without being required to issue a prospectus.

6.3 Purpose of the Offers

The purpose of the SPP Offer is to provide Eligible Shareholders the opportunity to subscribe for up to \$30,000 of SPP Shares on the same subscription price and terms as those offered to Placement Investors under the Placement.

A total of \$500,000 will be raised from the SPP Offer (which includes any SPP Shortfall subscribed by the Underwriter), the proceeds of which, together with the \$3 million to be raised under the Placement, will be used to undertake the "Sleep Analysis of Depressive Burden" (SADB) trial; undertake commercialisation activities for the Company's MEBsleep and ilumen products, complete the development of the Company's consumer application and for general working capital. The additional working capital will enable the continued growth of the Company's current products alongside its future products.

As the Option being offered under the Cleansing Offer is being offered for nil consideration, no proceeds will be raised under the Cleansing Offer. The Cleansing Offer is being undertaken for the purpose of section 708A(11) of the Corporations Act 2001 (Cth) to remove any secondary trading restrictions on the on-sale of Options issued (or to be issued, as the case may be) by the Company to the Placement Investors under the Placement and to the Underwriter, prior to the Cleansing Offer Closing Date.

8. Risk factors

The business activities of the Company are subject to risks and there are many risks which may impact on the Company's future performance. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but many are outside of the control of the Company and cannot be mitigated. There are also general risks associated with any investment. Investors should consider all of these risks before they make a decision whether or not to acquire SPP Shares or acquire and exercise Options (including the SPP Options) offered under this Prospectus.

The Offer Securities are considered speculative. An investment in the Company is not risk free and the Directors strongly recommend that potential investors consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding to apply for the Offer Securities.

The principal risk factors include, but are not limited to, the following.

8.1 Company-specific risk

(a) Competition regulation and loss of reputation

The health industry is intensely competitive and subject to rapid and significant change. A number of companies, both in Australia and abroad, may be pursuing the development of products that target the same markets that the company is targeting. The Company's products may compete with existing products that are already available to customers. In addition, a number of companies, both in Australia and abroad, may be pursuing the development of products that target the same customers that the Company is targeting. The Company may face competition from parties who have substantially greater resources.

(b) Regulatory approvals and investigations

The research, development, manufacture, marketing and sale of products using the Company's technology are subject to varying degrees of regulation by a number of government authorities in Australia and overseas. Other than regulatory approvals for applications made by the Company, the Company may also become subject to regulatory investigations by any one or more regulatory bodies for current or historical actions by the Company. Depending on the outcome of regulatory investigations, the Company may be fined or sanctioned and its reputation and brand may be negatively impacted, which could adversely affect its business prospects, financial condition and results of operation.

(c) Commercialisation of products and potential market failure

The Company has not yet commercialised its technology and as yet has no material revenues.

The Company is dependent on commercially attractive markets remaining available to it during the commercialisation phase of its technology and there is a risk that, once developed and ready for sale, commercial sales of the Company's products to fund sufficient revenues for continued operations and growth may not be achieved. In addition, commercialisation of the Company's technology is dependent on the Company having appropriate clinical evidence to support its efficacy, obtaining relevant regulatory approvals and sufficient acceptance and adoption of the Company's products and technology by the medical industry and medical practitioners.

(d) **Dependence upon key personnel**

The Company depends on the talent and experience of its personnel as its primary asset. There may be a negative impact on the Company if any of its key personnel leave. It may be difficult to replace them, or to do so in a timely manner or at comparable expense. Additionally, any key personnel of the Company who leave to work for a competitor may adversely impact the Company.

In summary, the Company's ability to attract and retain personnel will have a direct impact on its ability to deliver its commercialisation and commitments. Additionally, increases in recruitment, wages and contractor costs may adversely impact upon the financial performance of the Company.

(e) **Requirement to raise additional funds**

The Company may be required to raise additional equity or debt capital in the future. There is no assurance that it will be able to raise that capital when it is required or, even if available, the terms may be unsatisfactory. If the Company is unsuccessful in obtaining funds when they are required, the Company may need to delay or scale down its operations.

(f) **Research & Development Grant (Commonwealth)**

The Company is eligible each year for an R&D Tax Incentive refund. The R&D Tax Incentive is an Australian Government program under which companies receive cash refunds for 43.5% of eligible expenditure on research and development. There is no guarantee that this program will continue or that the eligibility criteria will not change. Refunds are subject to audit by the Australian Tax Office and AusIndustry which may result in a requirement for repayment in certain circumstances.

(g) **Growth**

There is a risk that the Company may be unable to manage its future growth successfully. The ability to hire and retain skilled personnel as outlined above may be a significant obstacle to growth.

(h) **Intellectual Property**

The Company's ability to leverage its innovation and expertise depends upon its ability to protect its intellectual property and any improvements to it. The intellectual property may not be capable of being legally protected, it may be the subject of unauthorised disclosure or be unlawfully infringed, or the Company may incur substantial costs in asserting or defending its intellectual property rights.

(i) **Risk of delay and continuity of operations**

The Company may experience delays in achieving some or all of its milestones, including but not limited to product development, obtaining regulatory approvals, or delays in sales of licensing. The company is also dependent on amongst other things its technology, key personnel and IT systems. Any disruption or delay to any key inputs could impact adversely on the Company.

(j) **Liability claims**

The Company may be exposed to liability claims if its services are provided in fault and/or cause harm to its customers. As a result, the Company may have to expend significant financial and managerial resources to defend such claims. If a successful claim is made against the Company, it may be fined or sanctioned and

its reputation and brand may be negatively impacted, which could adversely affect its business prospects, financial condition and results of operation.

The Company may be exposed to claims from employees who have left the company or may leave it in future for unfair dismissal.

(l) **Contractual risks**

As a party to contracts, the Company will have various contractual rights in the event of noncompliance by a contracting party. However, no assurance can be given that all contracts will be fully performed by all contracting parties and that the Company will be successful in securing compliance with the terms of each contract by the relevant third party.

(m) **Exchange rate risk**

The expenditure of the Company is and will be in Australian and United States currencies, exposing the Company to fluctuations and volatility of the rates of exchange between the Australian dollar and the United States dollar as determined in international markets.

8.2 General risks

(a) **Options**

The Options may not be quoted on ASX (refer to Section 5.13 for further details). If the Options are not quoted on ASX there will be no secondary market for the Options. This may adversely affect the Option holder's ability to sell their Options at a desired price, if at all.

(b) **Economic**

Factors such as inflation, currency fluctuation, interest rates and supply and demand have an impact on operating costs, and stock market prices. The Company's future revenues and prices of its securities may be affected by these factors, which are beyond the Company's control.

(c) **Changes in legislation and government regulation**

Government legislation in Australia or any other relevant jurisdiction, including changes to the taxation system, may affect future earnings and relative attractiveness of investing in the Company. Changes in government policy or statutory changes may affect the Company and the attractiveness of an investment in it.

(d) **Global credit investment market**

Global credit, commodity and investment markets have recently experienced a high degree of uncertainty and volatility. The factors which have led to this situation have been outside the control of the Company and may continue for some time resulting in continued volatility and uncertainty in world stock markets (including the ASX). This may impact the price at which the Company's securities trade regardless of operating performance and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required.

(e) **Exchange rate risk**

If the Australian dollar falls in relation to the exchange rate where the product or service is sourced from, then since the Company's financial statements are prepared in Australian dollars, this may impact its performance and position.

(f) **Unforeseen risk**

There may be other risks which the Directors are unaware of at the time of issuing this Prospectus which may impact on the Company, its operations and/or the valuation and performance of the Company's securities.

(g) **Combination of risk**

The Company may not be subject to a single risk. A combination of risks, including any of the risks outlined in this Section could affect the performance valuation, financial performance and prospects of the Company.

(h) **Unforeseen expenditure risk**

Expenditure may need to be incurred that has not been taken into account in the preparation of this Prospectus. Although the Company is not aware of any additional expenditure requirements other than those announced on the ASX and disclosed in this Prospectus, if such expenditure is subsequently incurred, this may adversely affect the expenditure proposals of the Company.

(i) **Market conditions**

Equities market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Equities market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and biotechnology stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(j) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offers. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and may be prevented from progressing the commercialisation of its products. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(k) **Speculative investment**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Offer Securities.

Therefore, the Offer Securities carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities.

Potential investors should consider that an investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Offer Securities.

(l) **COVID - 19 Pandemic and Possible Similar Future Outbreaks Risk**

At the time of issue of this Prospectus, the global pandemic COVID-19 is having a significant and material impact on global markets and providing substantial impingement on the day-to-day operations of businesses. The pandemic may disrupt or prevent the Company from undertaking its operations and intended programs and may impact the Company's ability to raise capital in the near to medium term future.

Different regions in the world have from time to time experienced outbreaks of various viruses. At this time, a widespread global pandemic of severe acute respiratory syndrome coronavirus 2 (commonly known as SARS-CoV-2) and the infectious disease COVID-19, caused by the virus, is taking place. As the virus and the diseases it causes are relatively new, effective cures and vaccines are continuing to be developed. While COVID-19 is still spreading and the final implications of the pandemic are difficult to estimate at this stage, the pandemic has had and will continue to have a significant and severe impact on the lives of a large portion of the global population and cause significant effects on global markets and trade. At this time, the pandemic has caused states of emergencies to be declared in various countries, travel restrictions and bans being imposed, quarantines being established and various industries, businesses, companies and institutions to close.

The ongoing effect of COVID-19 and any possible future outbreaks of viruses may have a significant adverse effect on the Company's operations, such as preventing the Company from carrying out its planned MEB sleep trials. The current pandemic may also have a severe negative impact on the jurisdictions in which the Company operates, which may affect the Company's ability to raise capital, decrease income of the Company and/or the Company's ability to pay its creditors in the event that its operations are negatively affected.

9. Additional information

9.1 Continuous disclosure obligations

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Prospectus is a 'transaction specific prospectus'. In general terms a 'transaction specific prospectus' is only required to contain information in relation to the effect of the issue of securities on a Company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing Company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been provided to ASX and does not include all of the information that would be included in a Prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with ASIC in relation to the Company may be obtained from, or inspected at, the offices of ASIC; and
